SUMMARY

Full-stack developer and MCA student at Ramaiah University of Applied Sciences with hands-on experience building production-grade MERN stack applications and blockchain-based Web3 projects. Proven track record with an IEEE-published research paper, a hackathon win, and internship experience delivering real-world software features. Passionate about scalable architecture, clean code, and emerging technologies.

EDUCATION

Master of Computer Applications (MCA)

Ramaiah University of Applied Sciences, Bengaluru

2025 – Present

Bachelor of Computer Applications (BCA)

KLE Technological University, Hubli

2023 – 2025

TECHNICAL SKILLS

Languages: JavaScript, Java, C, C++, Python, Solidity, SQL, HTML, CSS

Developer Tools: VS Code, Git, GitHub, Docker, Kubernetes, Vercel, Render, Netlify

Libraries/Frameworks: React, Next.js, Node.js, Express.js, Tailwind CSS, SpringBoot, Kafka

Databases: MongoDB, MySQL

WORK EXPERIENCE

MERN Stack Intern | Palindrome Labs

Jan 2025 – May 2025

- Built and maintained 3+ web applications using MongoDB, Express.js, React, and Node.js, contributing to a 20% improvement in feature delivery speed.
- Collaborated with a cross-functional team of 5+ developers to implement and ship features using modern JavaScript frameworks, reducing bug backlog by 30%.
- Participated in code reviews and agile sprint cycles, improving code quality and gaining hands-on experience with production deployment pipelines.

PROJECTS

SafeSim

2026

Technologies: React, Solidity, Ethereum, MetaMask, Vercel

- Built a decentralized web app enabling secure cryptocurrency transfers through MetaMask wallet integration, achieving sub-3-second transaction confirmation times.
- Implemented real-time transaction signing and transfer tracking with a NeonGlitch-themed UI, deployed on Vercel.

Medisin

2025

Technologies: React, Node.js, Express.js, MongoDB, Vercel

- Developed a healthcare appointment system allowing patients to book and manage doctor appointments through a clean web interface.
- Built as a full-stack application with React frontend deployed on Vercel, enabling efficient scheduling for 100+ patients and reducing appointment booking time by 40%.

ACHIEVEMENTS & CERTIFICATIONS

- Published research paper "**A Comparative Analysis of U-Net, PSPNet, and FPNNet Deep Learning Techniques for Image Segmentation**" at ICEI 2024 (IEEE Conference, IIIT Dharwad). DOI: 10.1109/ICEI64305.2024.10912308
- Winner, HACKNOVA 1.0 | Agile iTech: Secured 1st place** in a 10-hour hackathon, recognized for outstanding innovation and technical excellence.
